D. COMMUNICATIONS

a. Rate Increase Talking Points

Mr. Harris went over the talking points for the proposed water and wastewater rate increases. He stated that the proposed water and wastewater rate increases are essential to maintain and improve service quality. For water services, a 2% rate increase is needed to generate additional revenue, translating to approximately \$4.78 more on a typical residential bi-monthly bill (3/4" meter/40 ccf usage). This increment, about half of the annual Consumer Price Index (CPI) increase, will cover the rising costs of routine maintenance, emergency repairs, equipment, materials, labor, and long-term capital improvements, with Operating and Maintenance (O&M) costs expected to grow by 3.6% annually. Over \$50 million in Capital Improvement Program (CIP) work is planned from FY 2025 to FY 2029. For wastewater services, a 10% rate increase is proposed to meet revenue needs, resulting

in an additional \$3.61 on a typical residential bi-monthly bill. This increase will fund essential services, including maintenance, emergency repairs, equipment, materials, labor, capital improvements, and debt service for a \$45 million State Revolving Fund loan to rebuild the wastewater treatment plant (WWTP). Wastewater O&M costs are projected to rise by 3.7% annually, with over \$66 million in CIP work scheduled from FY 2025 to FY 2029. Overall, a typical residential customer will see a combined increase of approximately \$8.39 in their bi-monthly water and wastewater bill.

E. NEW BUSINESS

a. City Council Presentation Review – John James

Mr. James reviewed his upcoming presentation for the May 7th City Council meeting, focusing on proposed water and wastewater rate adjustments and their necessity. He outlined recommended adjustments for wastewater, potable water, and non-potable water utilities: a 10% annual increase for wastewater over two years, a 2% annual increase for potable water, and no changes for non-potable water rates. There was a discussion about the presentation's language, content and formatting, and minor corrections were requested.

Dennis Bell, resident, commented that the residents will likely overlook Prop. 18 notices and focus solely on the rate increases.

b. City Council Rate Recommendations – Vote

Motion made by Vice-Chair Jain, seconded by Committee Member Ojeda, wastewater rate adjustment of 10% a year for fiscal years 24/25 and 25/26, were approved unanimously. Vote 7:0

Motion made by Vice-Chair Jain, seconded by Committee Member Lopez, potable rate adjustment of 2% a year for fiscal years 24/25 and 25/26, were approved unanimously. Vote 7:0

c. Proposed Future Meeting Scheduling

Mr. Harris suggested that the committee should meet quarterly to monitor the progress of the rate adjustments and expenditures. He proposed the following dates for the meetings: July 17, 2024, October 16, 2024, January 15, 2025, and April 16, 2025.

Following a deliberation on scheduling the next meeting, the committee agreed to this quarterly schedule. The committee requested that the agenda for these meetings include a review of total revenues to date and their yearly tracking, a comparison of total expenses versus capital expenditures, and an overview of available cash. Additionally, the committee asked to arrange a visit to the wastewater plant.

- iv. South Mountain Water Company Shares Sale**

Discussion of water company shares sale processes with attendees and Director Harris. Mr. Harris discusses assessment of shares rate increase and ground water extractions. Discussion continues in reference to the power point presentation of water shares and the issues with the ownership of the water shares and what led to the sale of those water shares to Yucaipa Valley Water District through unsolicited offer. Further details discussed regarding the transaction and the details of the sale of these shares. The price of shares was settled based on SMWC Board of Directors' own valuation which set the comparable share value at \$500 a share. Public attendees voiced concerns regarding the sale price and in their opinion did not reflect the market value price per their opinion. Director Harris closes with discussion of water budget and future of that water budget.

REDLANDS
Incorporated 1888
Municipal Utilities & Engineering Department

JOHN R. HARRIS
Director

TO: John James, Utility Advisory Committee Chair

FROM: John R. Harris, Municipal Utilities & Engineering Department Director

DATE: January 8, 2025

SUBJECT: January 15, 2025 Director's Report

Hello and thank you for serving the Redlands community as a Utility Advisory Committee (UAC) member! City of Redlands Municipal Code Chapter 2.70 establishes the responsibilities of the MUPWC as follows:

"The powers, duties and responsibilities of the committee are to review the water and wastewater rates, charges and revenue requirements of the city on a biannual basis. The primary goal of the committee shall be to recommend water and wastewater rates that provide revenue which recovers the costs reasonably borne by the city in providing water and wastewater services; are equitable to all customer classes; are in compliance with all state and federal law; and are easily explained to customers. The committee shall prepare and present its recommendations to the city council."

Revenues and Expenses To Date

Fiscal Year 24/25 Q2 recently ended, and financial data for all of Q2 is not yet available. However, the most recent revenues and expenses for FY 24/25 are provided as Attachments B-E, and the most recent Balance Sheet Reports are provided as Attachments F-G.

Operations and Maintenance Update

Water

Although the peak water consumption season (mid-August – early-September) has passed, the Line Fire jeopardized our ability to meet water utility customer demands. Paul Mariscal, Water Utility Manager, proactively switched raw water sources, from surface water to groundwater and State Water Project water, during the earliest days of the event. This allowed potable

water service to continue uninterrupted, in lieu of attempting to treat surface water contaminated with significant amounts of burn scar runoff debris.

Potable water production is currently at approximately twenty-six (26) MGD. Currently, total production capacity is approximately 38 MGD and varies with surface water availability. The local Mutual Water Companies were unable to deliver treatable water to the Redlands surface water treatment plants during the Line Fire, which further stressed the City's potable water production systems.

Wastewater

Wastewater Collections:

The team continues to clean and inspect sewer lines throughout the city and identify utility manholes that need to be replaced. This ongoing process aims to program additional rehabilitation projects in future years, ensuring the wastewater collection system remains efficient. Below is a progress chart of the cleaning and closed-circuit televising (CCTV) work performed by our team in FY 23/24. For a collection system of approximately 250 miles of pipelines, it would typically take three (3) years to complete this process.

FY 23/24 CLEANING & CCTV PROGRESS REPORT	
Total of Miles of Sewer Line	250
Total Miles Cleaned	218.16
Percent Cleaned Completion	87%
Percent Cleaning Remaining	13%
Total Miles CCTV	51.757
Percent CCTV Inspection Completed	21%

Wastewater Treatment Plant (WWTP):

Pump Overhaul Program - Collaboration with SoCal Edison (SCE) on energy efficiency tests at the WWTP. The team identified several pumps with potential for energy-saving rehabilitations. Staff has already purchased two of the pumps in the Program and anticipate delivery within six (6) months. Replacing these pumps will result in annual savings of 215,709 kWh and \$31,551.39 in energy costs.

Emergency Load Reduction Program (ELRP) - Implemented operational adjustments during peak hours to reduce strain on the electrical grid, supporting overall energy management.

MBR Optimization Strategy - MUED continues to implement an MBR optimization strategy with the goal of reducing energy and chemical usage and O&M costs. Quarterly MBR train isolation allows for comprehensive inspections, reduces equipment wear and tear, and prolongs membrane life, while maintaining adequate capacity for current flows. Additionally, MUED is negotiating an agreement with Veolia, the MBR manufacturer, to establish a Membrane

Replacement Program. This program would proactively stagger membrane replacements over the next twelve (12) years to avoid significant replacement expenditures in a single future fiscal year.

Joint Utilities Laboratory (Water Fund/Wastewater Fund)

The Laboratory Manager position is currently vacant and the recruitment announcement closed January 12, 2025.
