I. Policy

The purpose of this Contractor Safety Program (“CSP”) is to ensure, as best as reasonably possible, the protection and safety of all persons and property during construction activities undertaken by private contractors on behalf of the City of Redlands (“City”). The City has a comprehensive and structured approach in outsourcing services performed on City facilities by third-party persons and entities (“Contractor(s)”). The first phase of this comprehensive approach includes actively screening Contractors based on safety records, safety performance, and safety compliance. After the qualified Contractor is awarded a contract, the Contractor must then ensure compliance with all local, state, federal and Cal/OSHA regulations applicable to the contracted scope of work, and requirements set forth within this CSP. The Contractor, its agents, and personnel must adhere to the policies and procedures set forth by this CSP and all applicable laws and regulations.

II. Authority

California Code of Regulations, Title 8, Section 336.10 “Determination of Citable Employer”
California Code of Regulations, Title 8
“Greenbook” Standard Specifications for Public Works Construction
Redlands Municipal Code
California Building Code

III. Scope

This CSP applies to all Contractors who provide or render construction or improvement services for City-owned property and facilities.

The Contractor services covered under this CSP include, but are not limited to, the following:

- A. New construction;
- B. Remodeling;
- C. Facility maintenance or repair;
- D. Equipment installation or maintenance; and
- E. Services (i.e. janitorial, fleet operations, landscaping, etc.)

Consultants/ Professional service providers are exempt from having to submit a Safety Prequalification Questionnaire (“SPQ”), prior to the beginning of work, but they are expected to be compliant with industry best practices with regards to maintaining a safe work environment for their employees and others.

IV. Definitions

- A. **Contract** – any written agreement between the City of Redlands and a Contractor, to perform a specified scope of work on City facilities. With respect to this policy, a contract includes, but is not limited to: awarded purchase orders, bids, and/ or project contracts.
- B. **Construction Work** – construction, alteration, and/or repair, including painting and decorating.
- C. **Contractor** – a person or entity (including all personnel) awarded a contract to perform work on City property or facilities.
- D. **D.A.R.T Rate** – Injuries and illnesses severe enough to warrant: Days Away, Restrictions and Transfers. The DART rate is calculated using the following formula: Number of OSHA Recordable injuries and illnesses that resulted in Days Away x 200,000/divided by total hours worked by all employees during the year covered.

-
- E. **Designated Work Area** – an area where it is necessary to restrict or limit entry or access of nonessential personnel or the public. Examples include work areas involving remediation abatement, demolition, excavation, and overheadlifting.
 - F. **Facilities** – any building or property owned by the City of Redlands.
 - G. **Hazard** – source or situation with a potential for harm in terms of injury or health, damage to property, damage to workplace environment, or a combination of these.
 - H. **Job Hazard Analysis (“JHA”)** – a technique that focuses on job tasks as a way to identify hazards before they occur. It focuses on the relationship between the worker, the task, the tools, and the work environment. The objective is to eliminate the risk or to utilize control measures to reduce the risk.
 - I. **North American Industry Classification System (“NAICS”)** – is the standard used by Federal statistical agencies in classifying business establishments for the purpose of collecting, analyzing, and publishing statistical data related to the U.S. business economy.
 - J. **Non-compliance** – any deviation from standards, practices, processes, procedures, regulations etc. that could either directly or indirectly lead to injury or illness, property damage, damage to the workplace environment, or any combination of these criteria.
 - K. **Notice of non-compliance** – form provided to the Contractor by the City alerting the contractor of non-compliance with City specifications, Cal/OSHA regulations, or any other generally accepted safe work practice.
 - L. **Non-compliant hazardous work condition** – any hazard that is considered to be non-compliant with State or Federal safety and health regulations, City specifications, or any inconsistency with generally accepted work practices.
 - M. **Personnel** – all Contractor employees, contractors, sub-contractors and agents provided access to City property or facilities.
 - N. **Recordable Incident** – any injury or illness resulting in death, days away from work, restricted work or transfer to another job, medical treatment beyond first aid, or loss of consciousness per OSHA Section 1904.7(a).
 - O. **Safety Tailgate** – informal safety meeting generally conducted at the job site prior to the commencement of a job or work shift.
 - P. **Services** – any and all, labor, duties, functions and activities required to be performed by the Contractor under the contract and any subsequent addenda.

- A. Shall always be at the work site;
- B. Must be thoroughly familiar with the Contractor's Injury and Illness Prevention Program (IIPP) and Code of Safe Practices;
- C. Shall always be available to abate any potential safety hazards; and
- D. Shall have the authority and responsibility to shut down an unsafe operation, if necessary.

VI. Program

SAFETY PREQUALIFICATION PROCESS

- A. The safety prequalification process is intended to:
 - Provide the City with knowledge of past and current safety performance of Contractors working on City construction projects;
 - Improve Contractor compliance with City safety rules, including safe work practices required by applicable regulations and laws; and
 - Improve safety during Contractor activities.
- B. A copy of the SPQ shall be provided to each person or entity bidding on a project, as part of the bidding process.
- C. The completed questionnaire shall be returned and reviewed prior to awarding contract work, with supporting information provided as indicated by responses on the questionnaire.
- D. The SPQ shall be submitted to
35 Cajon St., Suite 4
Redlands Ca, 92373
Attention: Project Name-Contractor Name-SPQ
- E. The following criteria and information relating to the Contractor will be reviewed prior to awarding contract:
 - Contractor License;
 - Incident Rates;
 - OSHA Citations;
 - Safety Policies;
 - Safety Programs and Procedures;
 - Compliance History on City Projects; and
 - Certification Statement.
- F. Contractor must qualify in each section to be approved for the award of a contract.
- G. If a Contractor fails to pass prequalification procedure, the City has the right to disqualify the Contractor's proposal.

-
- H. All costs associated with compliance with City of Redlands prequalification requirements shall be at the sole expense of the Contractor.
 - I. If a Contractor provides information that is later determined to be false, or improperly withholds information, the Contractor will be immediately disqualified.
 - J. Any questions or information relating to filing this questionnaire may be answered by reaching:
 - Engineering: (909) 798-7698; or
 - Risk Management: (909) 798-7514

DISQUALIFICATION APPEAL PROCESS

This provision is established pursuant to Public Contract Code section 20101(d) which requires every public agency that requires prospective bidders to prequalify pursuant to the law to establish “a process that will allow prospective bidders to dispute their proposed prequalification rating prior to selection of an alternate bidder.” If the City intends to disqualify a bidder based upon the bidder’s safety record, the City will notify the bidder in writing and provide the bidder with any supporting evidence that has been received from others or adduced because of an investigation by the City. The notice of intention shall be sent by certified mail with return receipt requested or by overnight mail via a delivery service that provides online tracking which identifies the date of the prospective bidder’s receipt of the notice, and shall include notice that the bidder has the right to, and may request a hearing to rebut any evidence used as a basis for disqualification and to present evidence to the City as to why the prospective bidder should be found qualified. Requests for a hearing must be made by written request to the City within ten calendar days of the date of the prospective bidder’s receipt of the City’s notice of intention. If the bidder does not request a hearing within the time allowed, the City’s determination shall stand unchallenged and become final.

Within seven calendar days of receiving the bidder’s request for a hearing, the City shall notify the bidder in writing of the date, time and place of the hearing. The hearing shall be held no sooner than ten (10) calendar days and no later than fifteen (15) calendar days after the notice is given. The notice shall inform the bidder of its right to present testimony and documents in support of its position.

The hearing shall be conducted before the Redlands City Manager, which may be continued from time to time as reasonably determined by the City Manager but shall not exceed forty five (45) days. At the conclusion of the hearing, and after considering all testimony and documentation presented, the City Manager shall issue a written decision no later than five calendar days following the hearing. The City Manager’s decision shall be final and is not subject to further appeal to the City.

The bidder shall not be entitled to bid on any contracts with the City until it has met the safety pre-qualification standards. If the City Manager approves an appeal, the contractor will have been deemed to meet the qualification standards and it will be valid for one year. The bidder shall have the right to withdraw its application for prequalification or its appeal at any time before the City Manager’s decision becomes final. Such withdrawal will not preclude the bidder from re-applying for prequalification.

CONSTRUCTION PROJECTS

- A. After a contract is awarded, the Contractor shall maintain, throughout the duration of the project, safety measures as necessary to protect the public and workers within, or in the vicinity of, the designated work zone. This includes an evaluation of the work to be performed and the hazards likely to be encountered. Contractors are expected to follow, at a minimum, all pertinent laws, rules, and regulations for the location in which they will be working. Where applicable, Contractor Safety Programs will meet or exceed City programs/ procedures and are subject to review and approval by the City prior to contract execution.

B. Job Hazard Analysis (“JHA”)

1. Prior to a notice to proceed a JHA must be completed utilizing the City’s form, or equivalent, to assess the hazards present in the designated work area. Any information requested on the City’s form, but not stated on the equivalent form utilized, shall be provided separately with the original submission.
2. All members of the construction unit must sign the JHA to acknowledge hazard abatement procedures.
3. JHA must be kept at job site accessible to all impacted personnel.
4. Failure to follow JHA procedures may lead to termination of the contract.

C. Personal Protective Equipment (“PPE”)

1. All required PPE must be always worn during work activities.
2. All mandatory PPE must be highlighted in the JHA.
3. The Contractor shall provide PPE.
4. Failure to follow PPE guidelines may lead to termination of the contract.

D. Safety Tailgates

1. Safety Tailgate Meetings must be held on a biweekly basis for all construction projects.
2. The first meeting shall take place on Day 1, Week 1 and every other week thereafter.
3. Tailgates shall be signed by all personnel and submitted to Construction Inspector for recordkeeping.
4. Tailgate topics should be specific to the scope of work of the project.

E. Injury Reporting

1. Contractors shall immediately report injuries or accidents to the Project Manager (regardless of severity). Additionally, contractors are responsible for and must also conduct accident investigations of any injuries that occur on site and provide results to the Project Manager.
2. Use the City Incident Investigation Form (Attachment E), or equivalent, to meet this requirement.

F. Spill Prevention

1. The Contractor is responsible for any spill within the confines of the project and those outside of the construction limits caused by the Contractor’s defective equipment, containers, or personnel.
2. Secondary spill containment systems shall be used to prevent contamination of the environment.

G. Construction in Occupied Buildings

1. When building occupants are present during construction projects additional safeguards must be implemented to eliminate exposures and complaints. Dust/ particulates from demolition, sanding and other construction activities must be controlled by adequate ventilation, or containment and negative air ventilation systems based upon the specific type of activity and particle. Similar controls must be utilized for odorous activities including, but not limited to, carpet adhesive, painting, welding, and coatings.
2. The Contractor shall ensure that the HVAC system is protected to prevent contamination. If an HVAC system is unprotected and contaminated by any construction/demolition materials, the Contractor shall be held responsible for the cost of cleaning the system and any subsequent repairs therein.
3. Negative air ventilation systems shall have appropriate filtration and be exhausted outside of the building.

INSPECTIONS

- A. Follow-up inspections will be executed to enforce compliance with safety and health requirements.
- B. Follow-up inspections will be conducted as part of routine site inspections by construction inspector and Risk Management employees.

-
- C. The SPQ aims to provide the City with knowledge of Contractor safety history and safety practices. This minimizes the need for an increased frequency of inspections. In addition, the City will take the following guidelines into consideration when determining the frequency of inspections.
 - 1. Scale of project;
 - 2. The frequency with which the number and types of hazards change as the work progresses;
 - 3. More frequent inspections will be implemented in the beginning of the project; and
 - 4. When the Contractor has never worked for the City.

TRAINING/DOCUMENTATION

- A. The contractor will ensure that all personnel are trained for the scope of work they are assigned, as well as the equipment they will be utilizing.
- B. Documentation shall be on file with the City prior to project start.
- C. Personnel missing training documentation shall not be permitted to work on awarded City projects.
- D. Training requirements are mandated by Federal and State Regulations. This may include, but is not limited to, the programs listed in the SPQ.

NON-COMPLIANCE

- A. Contractor compliance issues shall be documented on the "Notice of Non-Compliance" form. A copy of this form shall be provided to the Contractor for completion.
- B. Upon receipt of the completed "Notice of Non-Compliance" form, the Project Manager and Risk Management will evaluate, based on the incident, and identify, as appropriate, any additional corrective and/or preventive actions for completion.
- C. If immediate correction is not feasible, the project will be temporarily stopped until the issue is adequately resolved.
- D. City staff with authority to stop work are:
 - 1. Construction Inspector;
 - 2. City Project Manager;
 - 3. City Manager; and
 - 4. Risk Management staff.
- E. Any violation or deviation from safety rules, procedures, or regulations, based on evaluation, may be subject to all disciplinary actions listed as follows:
 - 1. Verbal warning
 - 2. Written warning-Notice of Non-Compliance (work may not continue until approved corrections are implemented);
 - 3. Dismissal of non-complying personnel; and/or
 - 4. Termination of Contract.

The City of Redlands maintains the right to terminate any contract for the violation of safety issues without liability to the City.

CITY PERSONNEL

- A. All affected City employees will be informed in advance of any construction related work or other contract work which has the potential for impacting their workplace. Notifications will be made to all affected employees via e-mail or written memo by the Project Manager or designee. Notifications must include the following information:
 - 1. Start and end dates of the work to be completed;
 - 2. Work areas to be affected;

-
3. Description of work to be completed;
 4. Name and phone number of Project Manager;
 5. Name and phone number of Construction Inspector; and
 6. Name and phone number of Risk Management.
- B. Employees should be instructed to notify the Project Manager regarding logistical issues or other concerns. Safety and Health concerns should be directed to either the Project Manager, Inspector, or Safety Specialist.

VII. Recordkeeping

The City's Human Resources / Risk Management Department will maintain all records prepared in association with this CSP, with copies also placed on file with the office of the City Clerk.
